Good to know

If you activate OTM (Online Terminal Management - <http://otm.tab.at>) on your machines, they will be updated automatically to the latest version and will have access to all games.

The only update which has to be done with a USB stick is the update from version 6 to version 7. (this update contains an upgrade to Windows 7 - talk to your sales manager about this version for your Fun4Four)

If the machine is not connected to OTM, your dongle (hardlock) on the PC will decide which games are shown on your Fun4Four.

Check your configuration on the sticker of your USB dongle.

Configuration	Games included
INT - 1	All games until version 1.06
INT - 2	All games until version 2.00
INT - 3	All games until version 3.00
INT - 4	All games until version 4.00
INT - 5	All games until version 5.00
INT - 6	All games until version 6.00
INT - 7	All games until version 7.00
