☒ Activate

Press the button "Test connection" → Connection successfully established
(if not, check the LAN-cable and internet connection)

The screenshot shows the 'Machine/Set-up site' window. The 'Machine number' is 75755, 'Name of the establishment' is FE F4F Test, 'Place/Town' is 4052, and 'Country' is Austria. A 'change' button is below these fields. The 'Connection (Network - C)' section shows a message box with 'Connection successfully established.' and an 'OK' button. Below this, the 'Test connection' button is circled in blue. Other buttons include 'www', 'Register ...', 'Receive all data', 'Protocol', 'Back', and an 'Activate' checkbox.

fill out the first two boxes

The screenshot shows the 'Machine/Set-up site' window with input fields for 'Name of the establishment' (FE F4F Test) and 'Place/Town' (4052). Each field has a 'change' button to its right. The 'Country' is set to Austria. A 'Back' button is at the bottom right.

Now press the button "Register.." and then "New registration"

Now you see that you got a new Machine number

The screenshot shows a software window titled "Machine/Set-up site". It contains several input fields for machine configuration: "Machine number" (0), "Name of the establishment" (FE F4F Test), "Place/Town" (4052), "Address", "Telephone number", "Fax number", "Email", and "Country" (Austria). A "change" button is located below these fields. Below the "change" button is a "Connection (Network - C)" section with fields for "Telephone number", "User name", and "Time", and another "change" button. A status box in the center of the connection section displays "Registration is being sent...". To the right of this box is an "OK" button. At the bottom of the window, there are buttons for "www", "Test connection", "Register ...", "Receive all data", "Protocol", and "Back". A checkbox labeled "Activate" is checked in the bottom left corner.

After that you go back to the main menu

This screenshot shows the same "Machine/Set-up site" window after a successful registration. The "Machine number" field now displays "75757", which is circled in blue. All other fields and buttons remain the same as in the previous screenshot. The status box in the connection section now displays "Successful registration of the machine." with an "OK" button next to it.

Now the button "Online Service(OTM)" is available and you can press it.

Special Business Terms of TAB-AUSTRIA Industrie- und Unterhaltungselektronik GmbH & Co KG, Haider Straße 40, A-4052 Ansfelden (for short: TAB) for online terminal management (for short: OTM)

1. Standard Business Terms

The "Standard Business Terms of TAB-AUSTRIA Industrie- und Unterhaltungselektronik GmbH & Co KG" shall apply unless modified or supplemented by these Terms. You will find the "Standard Business Terms" at www.tab.at. TAB shall not assume any liability for the accessibility of OTM servers, for which reason no claims may be derived from their temporary inaccessibility.

Any eventual damage compensation claims shall be governed by the provisions of the "Standard Business Terms of TAB-AUSTRIA Industrie- und Unterhaltungselektronik GmbH & Co KG". Compensation for any eventual indirect defect damages shall be limited to direct damages up to one-half of the licence fees for OTMs billed within the previous 12 months and the client shall only be entitled to them if we or our vicarious agents have been guilty of extremely gross negligence or deliberate intent. There shall only be damage compensation claims in case of deliberate intent or extremely gross negligence and they shall be limited in their amount. TAB shall not assume any liability in regard to errors and erroneous data caused by circumstances under the client's control (such as a defective client terminal).

This contract may be cancelled by either party as of the end of each month if advance notice of one week has been complied with.

In case of contract breaches, in particular untimely payment of licence fees for OTMs, for music titles or other services based thereon, TAB shall be entitled to block services, fully or partially, or to cancel the contract with immediate effect.

Should one or more of the provisions below be or become void or unenforceable then the validity of the remaining provisions shall not be impaired thereby. The void or unenforceable provision shall instead be replaced by a valid or enforceable one accomplishing as much as possible the commercial purpose pursued with the initial one.

2. Billing by email

Invoices for OTM services shall be sent to you by email at the email address given by you in connection with OTM registration. You hereby waive postal conveyance of the invoice. On the receiving end you must ensure that all electronic transmissions of the invoice by email can be properly delivered to you and that technical facilities such as filter programmes or firewalls are adjusted accordingly. Any eventual automatic electronic responses (e.g. notice of absence) cannot be taken into account by TAB and shall not be deemed to prevent valid receipt. TAB shall not be liable for damages resulting from any eventually enhanced risk to an electronic transmission of the invoice by email compared with conveyance by post. The client shall bear the enhanced risk of access by unauthorised third parties due to storage of the electronic invoice.
